This summer Ballin' for Peace teams up with the LA County, Parks After Dark program to help improve lives county wide through resources and entertainment. In neighborhoods with high crime rates and economic hardship, the Parks After Dark (PAD) program turns parks into vibrant community centers.

Participating county parks will stay open late during summer evening hours and provide a variety of free activities for community members of all ages. By offering extended park hours and special activities, summer program aims to provide families with safe, fun experience in their communities.

Help make parks a safe haven for our youth and adults as we encourage all to "Have a Ball" in a peaceful environment by providing an outlet for participants to strive to reach their full potential by offering programs, needed services, and information.
